

## Student Headcount by Nationality – Fall 2018

This chart does not reflect official 25th Class Day Census Data – Official University Census is available from the TAMU Data and Research Services 845-7838. Differences in numbers reported in official class day reports and the ISS headcount are primarily due to differences in state and federal reporting of international students and the need to reflect current vs. static data reports to the state. This report is prepared by International Student Services at Texas A&M University, College Station.
